

interchangeable frames

Unlike the old days where light switches we fix to the walls are permanent; Radiance frees you from this predicament. With its interchangeable frames, you may change it anytime you like, depending on your mood for the day. Just little touches that brighten up your life and makes a big difference in your well-being.

features

- 5mm ● Top quality polycarbonate design with ultra-slim profiles (5mm depth).
- Wide variety of lacquered colours with gloss or matt finishes.
- Easily replaceable switch plates to renew your modern decor anytime.
- Inner accent frame to enhance your décor by adding a touch of colour or "glow in the dark" switch locators.
- Colour coded wiring connections for quick and safe installations.
- Extra large wiring terminals for easy connections.
- Specially designed terminal can prevent screws from falling out.

This favourite range of switches truly lives up to its name. Radiance takes the aesthetic factor of electric equipment beyond that which pleases the eye. It features 'glow-in-the-dark' switch locators that is a great idea in a room without illumination that acts as a 'beacon' for the user to find exactly where it is.

Get new switch plates to replace the existing ones if you feel like 'redecorating' your wall area. With so many choices, boredom is really not an option.
